

# Sharing Apollo Lunar Samples & More as the Nation Celebrated the Apollo 50<sup>th</sup> Anniversary on the National Mall

➤ Apollo 50<sup>th</sup> Celebration on the Mall was held in Washington, DC from July 18 - 20<sup>th</sup>, 2019.

➤ NASA Astromaterials staff was one of many exhibitors participating in the event. We brought meteorites from the Moon and Mars, Apollo Moon rocks, and enabled the public to experience collecting 3D printed samples of Moon rocks with Apollo replica tools off of a printed LRO map of the Moon.

➤ We reached 3000+ people who stayed at our tables ~10-30+ minutes interacting with our Subject Matter Experts!
